Overview

This document contains release notes for the latest Survey release.

Improvements and new features

This release includes the following improvements and new features:

USER ADMINISTRATION

- **Corrected errors that occurred while editing the user:** This feature improves the user editing process in loyalty User Administration by correcting errors that occurred during editing. Users encountered issues when attempting to edit user details. This feature enhances the robustness and reliability of the user editing functionality.
- **Corrected errors that occurred while deactivating the user:** This feature enhances the user deactivation process in loyalty User Administration by eliminating errors that occurred during deactivation. Users encountered issues when attempting to deactivate a user. This feature improves the reliability and effectiveness of the user deactivation functionality.
- **Vertical scrollbar issue when a user tried to clone a user and Under the survey Projects tab; “Security Admin” was changed to “Admin” for locations:** In the loyalty User Administration software, the label in the Survey Projects tab has been changed from “security admin” to “admin” under the Location column. Also, the issue with the vertical scroll bar not being displayed when a user tries to clone another user has been resolved. This update ensures clarity and alignment with the role designation, enhancing the accuracy of information displayed in the survey projects section.

SUPPORT STAFFSCOPE

- **Printing views from STAFFScope Dashboard:** This feature improves the print and export functionality within the dashboard, specifically addressing the reported issue where attempting to print or export resulted in a blank screen.

Coming Soon

These improvements, new features, and fixed issues will be delivered in an upcoming release.

ENHANCEMENT- GUESTSCOPE

- **Survey Solutions - New GUESTScope Dashboard navigation:** The navigation feature aims to enhance the user experience in the new GUESTScope Dashboard by introducing a comprehensive navigation menu on the left side of the screen. This menu will provide users with easy access to various modules, allowing them to efficiently navigate and select options based on their needs.

UNIFOCUS

- **Improvements to guest notifications and flash reports:** This feature enhances the guest notifications and flash reports to provide a more intuitive, informative, and user-friendly experience for both administrators and guests.

Help us improve

We value your input and want to hear from you! As we continue to enhance Unifocus products, we invite you to share your questions, suggestions, and feedback with us. If you have any thoughts or ideas on how we can improve our products, please don't hesitate to reach out to us at product@unifocus.com.
